

It has come to my attention that the FCC may expand LPFM and that it may impact some current FM stations such as K-LOVE radio. I am one of a growing number of people who have become disgusted with most of the radio programming currently available. Adds for sexual stimulants, tasteless jokes, and a lack of moral ethics had me turning off the radio until I came upon a Christian based radio station that not only provides our community with a station that our children could listen to but also provides a ministry to a lot of people who do not attend church but need a path to express their faith. The service provided by K-LOVE radio is vital. We need quality programming that promotes moral and ethical behavior in our society. I am proud to listen to this station. More than once it has lifted my spirits when I had become a little depressed. I would hate to see these stations compromised by a change in broadcast service. Please do not let an expansion of LPFM compromise current FM stations such as K-LOVE radio.

Regards,
Steve Lewis
